Dear Chair DeLauro and Ranking Member Granger:

I am requesting funding for the Improving Public Safety: Making our Senior Centers and Community Centers Safer for Everyone in fiscal year 2022. The entity to receive funding for this project is City of Santa Ana, located at 20 Civic Center Plaza, Santa Ana, California 92701.

The funding would be used to help support the City's public safety goals in protecting its resident families, seniors and young people, allowing them to gather safely at these essential community hubs – as part of the heart and core of the City. The security camera coverage will be installed at the facilities' perimeters, public ingress and egress, and the interior of the buildings. Since the security camera system will be able to capture and record images day and night, it would allow law enforcement to pursue investigations as needed, as well as respond to security problems or incidents. The system can also be used for live remote monitoring and audio communication; live monitoring would take place mostly after-hours. I certify that neither I nor my immediate family has any financial interest in this project.

Sincerely,

J. Luis Correa  
Member of Congress
